

Accessories – Drawers

All drawers are metal sided single-extension drawers, much the same as found in many kitchens. The drawer base is made of moisture resistant white Melamine.

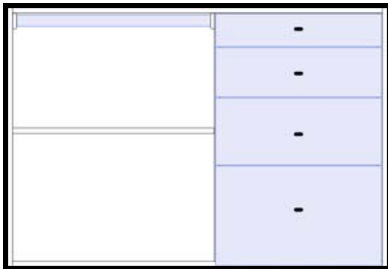

Five options are available to meet the particular needs of your business.

Options HalfA, HalfC and HalfE can be fitted with a suspended filing kit if required at an extra cost.

The 150mm drawer suits 2 x 200mm Spare Part trays or 1x200mm and 2x100mm Spare Part trays. See “Accessories – Storage” for more details.

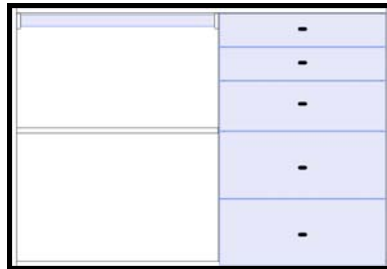

HalfA

Half-width pull-out worksurface with 4 drawers (1x100, 1x150, 1x200, 1x300mm)

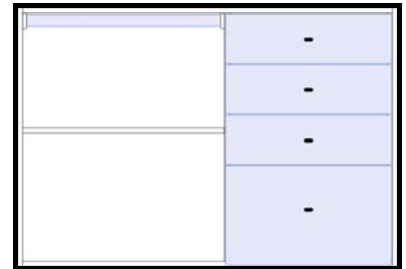

HalfB

Half-width pull-out worksurface with 5 drawers (2x100, 1x150, 2x200mm)

HalfC

Half-width pull-out worksurface with 4 drawers (3x150, 1x300mm)

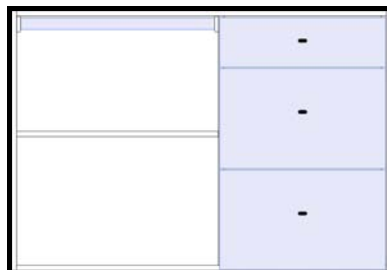

HalfD

Half-width pull-out worksurface with 6 drawers (3x100, 3x150mm)

HalfE

Half-width pull-out worksurface with 3 drawers (1x150, 2x300mm)

Accessories – Chairs

Three chair options have been selected from an Australian-owned company which specialises in the manufacture of Ergonomic Industrial and Office seating meeting the rehabilitation needs of industry. These chairs have a 5 year warranty.

These match the 915mm bench height and come with glides - safer on smooth surfaces. Friction castors, which will only move when weight is applied, are also available at a small additional cost. A foot-ring is included with the Machinist and Skin Polyurethane chairs.

Skin Polyurethane:

- A hard wearing polyurethane surface
- Foot-ring included but not shown
- Back tilt and gas height adjustment

Sit/Stand:

- Designed to support 80% of weight on the seat while 20% rests on the floor.
- Back tilt and gas height adjustment
- Polyurethane moulded seat.

Machinist chair:

- Narrow back for unimpeded arm movement.
- Foot-ring included but not shown
- Vinyl covered foam seat and back.
- Back tilt and gas height adjustment

Accessories – Lighting and Power boards

The Safety Space™ comes standard with a 60w strip light and a powerboard. It is also equipped with a concealed cable tray that allows your electrical appliances to be fitted without messy cables cluttering your workspace.

Lighting:

- Additional lighting can be added using adjustable Equipoise lights.
- These are fitted to the left side of the workstation interior wall and provide focussed light where you need it – invaluable for administering first aid or for fine detail work.
- Choose between a 60w dome light (bottom) or 3 x magnifying lens light (top)

Lighting:

- The Safety Space™ workstation is available with an individually switched powerboard with 10A overload protection.
- This is fitted during manufacture leaving a short extension at the back of the cabinet to connect with your power supply.
- Options include a 4-plug or 6-plug powerboard

Accessories – Whiteboards and Pinboards

Each Safety Space™ industrial workstation comes standard with either a 600x450mm whiteboard or 600x450mm pinboard attached to the left inside door. These can be replaced by a 900x450mm whiteboard or pinboard.

Additional whiteboards or pinboards may require other standard features to be relocated or removed – discuss your preferences with your sales consultant.

The whiteboards supplied with the Safety Space™ have a 5-year surface guarantee and are Australian-made from an imported acrylic surface.

The pinboards are made from a 6mm natural corkboard with an aluminium frame.

Whiteboards:

- 600 x 450mm
- 900 x 450mm

Pinboards:

- 600 x 450mm
- 900 x 450mm

Accessories – Document Displays

The document display options are a great way of communicating with staff.

The magnetic borders allow information to be displayed while the cabinet is locked – out of business hours or during lunches.

Clear document holders ensure important policies and notices are always clearly displayed and simple to change.

Flat document holders:

- Clear acrylic
- Thicker than those normally found in office supply stores
- A4 Portrait
- A4 Landscape
- A5 Portrait

Brochure holders:

- Injection moulded acrylic
- Screw onto interior doors or walls or tape to metal exterior.
- A4 Portrait (37mm deep)
- 1/3 A4 Portrait (37mm deep)

Magnets:

- Used for display on the powder-coated steel exterior
- A3 border (pairs)
- A4 border (pairs)

Unlimited Spaces

The Safety Space – creating safer workplaces™

Accessories – Storage

Various storage bins and containers are available to meet specific storage needs. These can be mounted to louvre panels, or screwed into the door or side panels.

Bins or louvre panels required for heavier loads will be bolted on before delivery – ask your sales consultant when ordering.

Visi-Pak Bins:

- Can be screwed into a wall panel, attached to a louvre panel or free standing on a bench top
- Bins clip together horizontally and are also designed to stack vertically
- Clear removable compartment keeps contents clean and allows easy visual stock control
