

Unlimited Spaces

The Safety Space – creating safer workplaces™

Extra Magnets Safety Module

The Safety Space™ comes with a variety of magnets to display the contents of the workstation when it is locked. Additional magnets are included for specific modules.

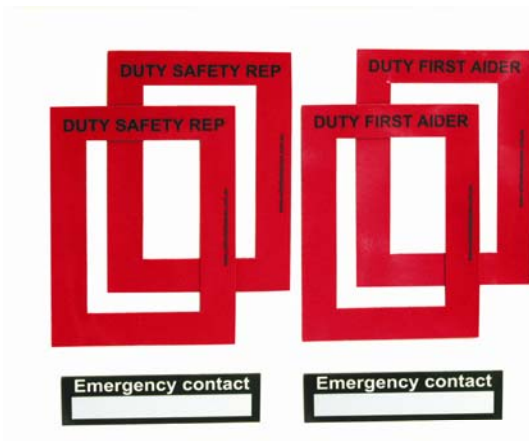

This safety module contains additional “Emergency Contact” magnets (2) and photo frames to display the Duty First Aider (2) and the Duty Safety Representative (2).

The photo frames could be for each shift, for each team in a Department or for those in other Departments. Photo's are a great method of enhancing the respect for these positions and useful in a multi-cultural or casual workforce.

The additional “Emergency contact” magnets allow several names/numbers to be stored and the rostered contact to be selected and displayed for that day. Alternatively several can be displayed in an easily changed order.

Module Contents:

- 2 x Duty First Aider photo frame
- 2 x Duty Safety Rep photo frame
- 2 x Emergency contact magnets

Other magnets that are available:

- 147x40mm signs

- A3 and A4 borders
