

Victoria-based manufacturer Unlimited Spaces helps businesses to effectively organise their workplaces. All products are specifically designed for industrial environments and can be customised to suit individual worksites.

Combined with a large range of safety equipment, storage options, signage and document displays, Unlimited Spaces' workstations, Activity Stations™ and Wall Space™ cabinets are creating smarter and safer workplaces

### Visitor Sign In Station

Size: 550mm (w) x 900mm (h)

- All workplaces must manage visitors and contractors on their site
- A highly visible sign-in station improves compliance to your sign-in procedures and saves staff time
- The document display provides the visitor with the information needed to be safe on your site.
- The clip makes information, such as site maps, available
- Use the tall compartment for spare visitor books, visitor induction forms or your emergency response manual.
- Store PPE and pass-holders in the clear-front tilt bins.
- This station can be screwed or bolted to a wall close to where visitors enter the site. The low profile will not intrude on walkways.
- 

### Wall Space™ Cabinets (including the First Aid Room Cabinet)

Size: 1050mm (w) x 1490mm (h)

- A flexible wall-mounted cabinet with many applications
- A place to organise, plan, store and communicate information
- Effective storage for paperwork, binders, or equipment
- Pull out worksurface (560mm wide) on full extension runners
- Choice of solid or clear doors, locked or unlocked, and dust-proofing
- Accessories – whiteboards, pin boards, document displays, brochure holders, storage, louvre panels and storage containers, specialist holders (disposable gloves, padlocks, keys)
- Many applications: First Aid, Facility Management, Testing Station, Lean manufacturing, Quality Control . . .
- First Aid Room cabinet (shown) includes a locked area for confidential records, prescription drugs or supplies

### Safety Space OHS Workstation™

Size: 1170mm (w) x 1940mm (h)

- A central location for safety committee minutes, safety notices, risk assessments and incident investigations
- An "office" for Health and Safety Representatives
- Hygienic First Aid facility
- Standardise safety processes across departments or multiple worksites
- A location for tool-box talks, worksite inductions and safety training
- Display and discuss workplace changes – from risk assessments and procedures, to new machinery and chemicals (including MSDS)
- Display Emergency and Evacuation procedures
- Store safety equipment and Personal Protective Equipment (PPE)

### Data Space Industrial Workstation™

Size: 1170mm (w) x 1940mm (h)

- A computer workstation to improve workplace organisation
- A place to organise, plan, store and communicate information
- Easily transportable around the site, or relocate to a new one
- Many applications including logistics, quality, and engineering
- Customise to fit computers, printers and peripherals
- Accessories include chairs, document displays, storage options

### Personal Protective Equipment (PPE) dispensers

This range of heavy-duty, wall-mounted PPE dispensers provides a convenient approach to storing, dispensing and replenishing PPE.

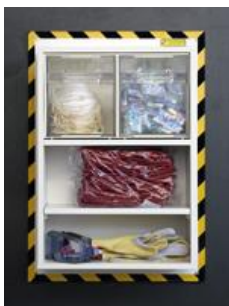

- Dispense several items from one place
- Robust construction will last for years
- Low profile does not intrude on walkways
- Suitable for wet areas such as food plants
- Hygienic surfaces easily wipe clean
- Remove dispenser bin inners for easy cleaning
- Clear view of contents and quantities
- Store more supplies below the dispensing bins
- Lock away expensive items - issue as you need

### Dust-free Safety cabinet

Size: 480mm (w) x 820mm (h)

Many workplaces have a dusty environment and keeping PPE or safety equipment clean and ready for use can be a challenge. This cabinet will hold a face shield, welding helmet, or a set of PPE for an emergency.

- Include signage on the door such as mandatory PPE pictograms.
- While this image has a dust seal, this may not be required in other applications.
- Can be locked or clipped shut.
- Add a *impact resistant* acrylic door so that contents can be viewed with opening the door.

**Safety Cabinets**

Size made to order

- Tall cabinet with one fixed shelf and as many adjustable shelves as required.
- Clear fronted doors made from shatterproof acrylic (4.5mm).
- Piano hinge runs full length.
- STOP Red laminate with white internal liner.
- Can be locked, clipped shut or have a padlock hasp.
- Options: extra adjustable shelves or replace some of the shelves with drawers.

**Activity Stations™ (wall-mounted)**

Size: 1050mm (w) x 1490mm (h)

Improve a safety system such as First Aid response, Plant Isolation (Lockout Tagout) or Team Safety.

- Combine safety equipment with document displays, storage, and signage.
- Use the worksurface to manage defective plants, issue work permits, conduct inductions or treat injuries.
- Use the document shelves for blank forms and as a mailbox for completed ones.

**Specifications and Options**

- Worksurface is 900mm above floor
- Open shelves or locked cupboard
- Reflective border draws attention
- Include your company logo on signs
- Many lockout devices available

Team Safety

Mobile stand

**Literature Sorters**

- Desktop or wall-mounted solutions to manage large quantities of paperwork, brochures, packets of labels, Clipboards, reams of paper.
- Two configurations - portrait (336mm deep) and landscape (236mm deep)
- Optional binder storage fits box files.
- Available in White or Storm Grey. Other colours available for multiple orders.
- 36 Standard sizes available. Others after discussion
- Can be fitted with a lockable dust-proof door.

**Site PPE Dispenser and Store**

- A dispenser to deal with the quantities of PPE required for a large site or department.
- Different configurations to suit specific equipment used.
- Example on right has seven lanes for gloves (e.g. riggers) and holds approx. 500 pairs. The clear acrylic cover provides loading from the top and dispensing from the bottom.
- Deep drawers on full extension runners can be used for safety glasses or other irregular shaped items. The drawer can be partitioned for different sizes or models.
- Specify the contents and we will use our database of PPE sizes to provide a plan.
- Available in White or Storm Grey. Other colours available for multiple orders.

**Emergency Response boards**

- Digitally printed site information
- Combine with hard hat hooks, brochure holders, document displays

**Product Development**

If you want a workstation, cabinet, or safety station for your workplace – ask us to provide a plan and costing. We can also provide artwork and digitally printed signs to compliment our products.

We are currently developing several projects. If you have an interest in any of these please call.

- **Weather-proof Construction Safety Station** – lift to site with a crane or forktruck. Options include an eyewash unit.
- **Fabricated acrylic dispensers** - for earplugs, hairnets and beard nets, and general purpose storage. Variations will include holders for common brands of earplugs and weatherproof dispensers.
