

Visitor Sign-in Station

Act today for a safer tomorrow!

You are responsible for visitors and contractors on your site

Visitors may not know your site nor recognise dangers and, unescorted, they may be a safety risk to your staff or themselves.

During an emergency, you must know who is on site - even out of normal business hours.

Visitors and contractors must be signed in - often at several points around the site.

Features and Benefits

- Wall-mount close to visitor entries
- Store visitor pass holders and PPE
- Display site safety rules and notices
- Highly-visible station improves compliance to sign-in procedures
- Remove clutter from Reception desks
- Store spare visitor sign-in books
- Low-profile won't intrude on walkways

Visitor Sign-in Station with two removable tilt bins for Personal Protective Equipment or pass holders.

The compartment on the left hand side will hold a spare visitor book or a binder for visitor and contractor inductions.

A4 Document Display and clip for important safety information.
